*Happy and Blessed New Year,  
My TOHM Family!!!*

Our Faith Word for 2021 is **FAVOR**.

God gave me that word for us as I asked Him for a word for us for 2021. I am believing God for unprecedented *favor* in every area of our lives...*favor* in the workplace with our supervisors and managers, consultant contracts, finances, relationships of every kind, and purchasing real-estate. Whatever you have been praying for, God has spoken *favor*. Believe it, claim it and expect it!

Our Healing Word for this year is **DISCIPLINED**. In order to be totally healed and completely free, we must be *disciplined*. *Disciplined* in journaling and intentionally creating quiet time (include speaking declarations over ourselves during this time, exercising (if only for 15-20 minutes several times a week), reading and studying The Word,

and listening to inspirational sermons and songs.

My prayer for TOHM (us) for 2021 is that this will be a year of Deep Roots where we will look and we will see, we will hear and we will understand, that Kingdom seeds

will be scattered on, in, and throughout our hearts, and they will fall on good soil so that we will grow into emotional and spiritual maturity and patiently wait for the harvest God has promised us of healing, favor, blessings, restoration, and the desires of our hearts.

My final prayer for us is that we will be watchful as we hear the

word, to be cognizant of the weeds of sicknesses, diseases, mental disorders, personality disorders, emotional disorders, error, religion, strife, jealousy, and past pains that try to attach themselves to us to choke out the word and prevent growth, thus causing us to remain a babe and toddler in Christ. We are meant to grow from milk to meat.

I am praying for our exponential growth this year in God's Word, Wisdom, and Will.

Finally, that we might decrease so that Jesus Christ can increase in us.

***Blessings, healing, and prosperity to you this New Year!***
